Request Information	
Request Description	
System should be able to get weather condition from internet for olive producers.	
Justification	
This requirement is necessary because it affects production. And with this requirement system will enable more accurate calculation of estimated olive oil production.	
Effect if declined (Risk if the project request is declined)	
Since weather affects the production if this requirement is rejected the production quantities calculated by the system will give incorrect results. Since production affects the user's earnings if this requirement is rejected the system will give false results.
