<b>Request Information</b>	
Request Description	
System should be able to calculate earnings from olive oil sales.	
Justification	
The user wants his earnings to be calculated by taking into account the taxes he has paid, the bottles he bought and his income from the sale. So the system will calculate the over all earnings for the user.	
Effect if declined (Risk if the project request is declined)	
This is the main expectation of the user from this system. Therefore, the rejection of this requirement will cause the user's request not to be met.
